EDUCATION

Chaitanya Bharathi Institute of Technology

Bachelor of Engineering in Information Technology

CGPA: 8.2

Hyderabad, India

2022 – 2026

EXPERIENCE

CoderOne

Full Stack Developer Intern

Remote

Oct 2023 – Dec 2023

- Acquired expertise in web development technologies, emphasizing the MERN stack.
- Developed two MERN stack projects, showcasing full-stack application skills.
- Collaborated on scalable web applications, emphasizing efficient backend and responsive frontend design.
- Integrated MERN components for seamless user experiences and robust functionality.

Hackathon - Hacktoberfest

Team Leader

College Event, Oct 2023

- Led a team to develop a project for a college hackathon, focusing on innovative solutions and effective project management.
- Presented the project to a panel of judges, showcasing the functionality and creativity of our solution
- Collaborated effectively with team members to implement features and resolve issues in a competitive coding environment.
- Secured 1st position in the hackathon, demonstrating strong leadership and technical skills.

PROJECTS

Alumni Tracking System | MERN Stack

- Developed a full-stack web application using MongoDB, Express.js, React, and Node.js (MERN).
- Developed an interactive platform where Alumni and current students can connect and engage.
- Implemented an admin verification system to authenticate alumni credentials by cross-referencing the college database.
- Enhanced communication and networking opportunities within the college community.

PG - Life | HTML, CSS, JavaScript, React, PHP, MySQL

- Built a full-stack application using HTML, CSS, JavaScript, React, PHP, and MySQL for finding PGs or hostels in various cities.
- Designed distinct login and signup pages for property owners and users searching for accommodations.
- Implemented features to display amenities and detailed information about each property, enhancing user experience.
- Integrated a robust search and filtering system to help users find properties that match their specific requirements quickly and efficiently.

ChatFlow | MERN Stack, Socket.io

- Developed a real-time chat application using React for the frontend and Node.js with Socket.io for the backend.
- Implemented MongoDB for storing user data and chat history, ensuring persistent communication between users.
- Integrated user authentication and real-time messaging, allowing users to securely login and engage in conversations.
- Designed an intuitive user interface with responsive layouts, enhancing accessibility and usability across different devices.

Portfolio Website | JavaScript, HTML/CSS

- Developed a personal portfolio website using HTML, CSS and JS to showcase projects, skills, and experience.
- Ensured responsive design for optimal viewing across devices (desktops, tablets, and smartphones).
- Integrated contact forms, project galleries, and social media links to enhance user engagement.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, HTML/CSS

Frameworks: React, Node.js, Express.js

Libraries: Pandas, NumPy, Matplotlib

DBMS: MongoDB, SQL

Data Structures and Algorithms (DSA): Fundamental to Intermediate Proficiency
